> ST. ANDREW'S SUNDAY SCHOOL, KOWLOON.

The annual outing for the above Sunday school was to have been on Saturday fast, and agrangements had been made to visit Seaton by launch but owing to the unfayourable weather the outing as ar ranged could not be carried out.

At one elclock, as the rain had actually set in, it was decided by the committee to abandon the idea of going to Seaton and the children were assembled at the Soamen's Institute.

In spite of the weather more than helf of the children were present and after various housements which the young folk seemed to heartily enjoy—if same can be judged by the screams of delight that echeed through and through the rooms, ten was served at four o'clock and after "Grace" had been sung the tables were bessiged, cakes, etc., quickly vanishing. Subsequently, the Sunday School Prizes

ware presented various Prizes which were awarded for good conduct and attendance there were three special Prizes given for Religious Knowledge, Girls division, Eva Packham ; Boys, Division, Harold Lewis; and Edward Lewis in the Infant's division. At 7 o'clock 'each child received a small fancy bag of sweets, then three hearty cheers were given for Mrs Packham and

the other ladies who carried out the most important duty of catering. The afternoon's enjoyment was concluded

by singing the National Anthem. The Committee of the Sunday School wish to thank all those that contributed and assisted in rendering the afternoon a

UNION CHURCH.

CONSULTING ENGINEER, The report for the year 1908-9 issued to the seatholders of Union Church directs attention to the fact that for the past year or two expenditure has exceeded income, and that there is now a debit on the working account of \$765.60. It goes on to state that the present position has arisen from a combination of co-operating causes, of which the following are probably the most important: -(1). The trade depression has adversely affected the ability of some to give as in more prosperous years. This seems now passing; but other causes continue to operate. (2) For some years the Office Tel. 195." Residence K20. Church Hall, while remaining available in the evenings and on Sundays for Church purposes, was let during the day to a German School; and the rent yielded a sum HONGKONG AND WHAMPOA DOCK of 8600 annually. The school was removed to to Tsingtau early in 1907; and the Committee have not been able to make any similar agrangement in reference to the ball. (3). During the past two or three years a succession of substantial supporters of the Church funds have left the Colony. (4). There has been a steady, and inevitable, transfer of seatholders resident in Kowloon to the new church providing local facilities. for public worship. The expenditure has been carefully scrutinized; and the Committee are of opinion that it cannot be properly reduced. The Committee of Managementare unwilling to contemplate the question of supplementing the income by having recourse to means other than voluntary giving on the part of those who worship in the Church, through the payment of rents for sittings and the weekly offertory. They therefore place before the Congregation a detailed statement of the present position, that they may arge the necessity of increased liberality in reference to the ordinary collections (which, it is satisfactory to note, are showing an upward tendency), and ask co-operation of all in the matter of getting new-comers to the Colony to take

(Front Our Oun Correspondent.) CANTON, April 30. PROTECTION FROM PIRACT.

Cases of piracy on the water and of robbery with violence on the shore have become so numerous in the Heung Shan district that the officials four that the fishing industry will be aeriously injured. A potition stating the facts of the case has been sent-to-the-Vicercy who has recommended that the junks sail in company for mutual protection. A further proposal that the Government issue arms to the craws is under consideration.

ESTABLISHMENT OF A FACTORY. A mechanical factory has just been established by the merchants in the Chung Fa District. On the opening day hundreds of visitors were present at the coremony. Afterwards the guesta were conducted round the factory and the various branches thereof explained to them.

A constable attached to No 3 station at Sai Kwan has committed suicide. The authorities were at once acquainted with the fact and the Nam Hoj magistrate ordered an inquest to be held on the body to ascertain if possible the reason that caused the act. .

A WORTHLESS CHARACTER. Chan Leung Pin, a native of Ching Ho, has always been noted for possessing an idle disposition. Since his father's death his uncle has kindly supported him. His conduct, however, has been going from bad to worse and he has now disgraced his family by attempting frauds on pawnbrokers. He has been sent to prison.

THE HONOUR OF THE POLICE. So Ah Wing was formerly a dook in one of the Sai Kwar police stations. He resigned his post but a few days ago but returned to the station to visit his old friends. At the station he was saked to become substitute for a former comrade who was sick at, the time. Ho agreed and in the full panoply of his uniform forced his way into the Sai Kwan theatre without paying for his ticket. A disturbance having been created he was send to the police station as a prisoner. He has been very severely dealt with for bridging dishonour on the name of the police.

PRICEATION TO THE STRAITS. It is said that over ten thousand natives of the Shun I district have emigrated as coolies to the Straits and Main States. Yery few of them attain wealth but one lucky fellow named Ngan has lately return: ed with over thirty thousand dollars. I is said that the emigrated coolies of this district remit a total of about twenty thousand dollars per annum, or only about. two dollars per head.

PATHENT OF REWARDS. Last your the Government offered re-

and according to \$1,000 for the arrest arrested by men under the command of Lieut. Col. Chong and duly executed. The 599 rewards not being forthcoming the Colonel has petitioned that they be paid at once or distributed among those who assisted in the capture. He states that soldiers who show such conspicuous bravery should be heartily encouraged.

GERMANY AND KIACCHOU.

.In the Budget Committee of the Reich stag on March 26, Admiral von Tirpitz defended the estimates for Kiaochou, and as in previous years condemned the idea of an evacuation of what a Centre Party Deputy described as the Potsdam of East. Asia. He felt sure that pessimists would soon be silenced. Notwithstanding the economic depression, the revenue of Tsingtao had risen by \$40,000 (about £3,000), while the resenue of Hongkong had fallen by \$200,000 (about £17,500). Shipping and railway figures were advancing, coal exports, were being multiplied and industry was expending. Admiral von Tirpitz refused to compare Kiaochou wit Weihaiwei ; Hongkong afforded the only parallel .- The Times

JAPAN AND MANCHURIA.

In the House of Commons on March 22, answer to Sir W. Bull Mr McKinnon said: There appears to be no. parallel between the letten of the Russian Government at Barbe, to which the hon. of the Japanese Gournment to the construction of the Fakuren railway. This. House on 17th inst. weply to a question Division (Mr W. Kerrick), and we have nothing to add to with was said on that occasion. His Majesy Government have no reason to bollevo but Japan is assuming, or is endeavouing to assume, territorial jurisdiction in Janchuria.

Dr Angus Bowley Wilson, aged thirtytwo, who was a house surgoon at the London Hospital, has lost his life in a tragic manner. Dr. Wilson we performing an STORES, operation on a wonen suffering from landanum poisoning when in her stenggles she bit one of his thumbs. THE CHIEF JUSTICE'S LITERARY LABOURS.

Reviewing the third edition of Six Francis Piggott's "Foreign Judgments and Jurisdiction," the Japan Mod says :-Sir Francis Piggott's indelatigable industry enables him, while discharging judicial functions of a most onerous nature, to compile learned works which are recognised as the classics of the subjects with which they deal. He has now brought out the third edition of his "Foreign Judgments" and its publication enables, him, as he tells us in his preface, "to give it its proper place in the series of works which I have so long contemplated - a series which should treat comprehensively the position of British subjects beyond the realm with reference to the law of England." In previously reviewing some of this learned jurist's productions we have commented on their admirably lucid style and forceful dictions and these qualities are eminently char acteristic of the work now before wa-a bulky octavo volume of 483 pages, printed in large clear type upon paper luxuriously thick and white. Any attempt to criticise the contents, however, assumes a knowledge of this intricate subject such as is himself. Instead of essaying such a task. therefore, we shall confine ourselves to reproducing Sir Francis' own synopsis of the plan on which the series of his great works has been based :-

Having first determined the limits of the Realm and its waters, I have proceeded to ascertain who are, and who may become, British subjects, not only in the United Kingdom, but in all parts of the Empire ; and next to trace the operation of the law upon a British subject in the territorial waters, in the fisheries round the coast and on the high sex, and its attempts to follow him into foreign countries.

From this I pass to that exceptional and highly artificial system of law known as "Foreign Jurisdiction," which has been specially designed for the protection of the British subject in his trading operations in oriental countries, so that he may live under British law and be subject to British

Then, under the familiar title "Foreign Judgments," I have traced the slow evolution of that most imperfect of systems which does its best, though some. On view from Wednesday, the 5th May, times failing altogether, to see justice done in his commercial transactions with mer-

> become ununageable. This branch of the subject concludes with a study of the civil procedure by which the hw in its different branches is put in motion against persons beyond the sea, and the which regulates the almost free right of access by foreigners to our

study the criminal aspect of the question how the law has supplemented its sell imposed powerlessness with "regard fugitives from justice, and devised means to secure their return from hiding in other countries and in the Colonies.

MARINE SIGNALLING.

The importance of the establishment of and the Naval-in the matter of marine in its possibilities would be taken if it It is becoming more and more realised board right throughout both services. that not only would an organised That a serious and influential move be and thoroughly matured, and in fine system of efficient signalling between made to achieve this end is what we opportunity of more frequently obtain- emanate from Hongkong with its wealth ing home and shore news, but, further, of shipping interests? And to what in the event of war, the advantage more useful and truly pariotic idea which would be secured as the result of the British Mercantile Service acting the weight of its influence? as scouts for the Royal, Navy would be beyond computation, For "it must be remembered that as a channel of communication the British Mercantile Service is the finest in the world; our ships for three months, Mr Lowder has taken are in every port; they are to be found visiting the most remote rivers and most distant scas.

In the course of a letter sent to the Imperial Merchant Service Guild cently, Lond Chanles Benestond referred to the steady improvement, which being made in this matter of marine signalling, and added: "There can be no doubt that the late im- help in a time of trouble." pulse to signalling between the two branches of shipping is doing a great deal to being the services more completely in accord together. I hardly ever pass a merchant ship now at sea feelings of his fellow sufferers. without being able to communicate with her clearly and rapidly, and on several occasions the initiative has come from the merchant ship. This is most estis isctory, and verifies my prediction, that if once the matter was taken up and

placed before the Captains and Officers. of the Mercantile Marine in its true light. they would be the first to appreciate the value of being able to communicate with men-of-war, but I must confess that their been effected. energy and enterprise in this direction has far exceeded the hopeful anticipa-

In a further letter to the same body ORD CHARLES BENESFORD reiterates his keen interest in the Mercantile Marine, its officers and men, and all that appertains to its welfare and good, and then goes on to say:-"The British Empire depends upon the two great Sea | Services for its existence—on the one hand, the Mercantile Marine for the rapid and punctual delivery of waterborne commerce, including the important item of food; and on the other, the Military Shipping for policing and preserving intact the Line of Com- Oceanographical Laboratory, has made munication for the Mercantile Marine it war. The closer we get together in this cost of which is estimated at £50,000. community of interests, the better for the Empire. Good co-operation and efficient signalling is perhaps one of the most important methods by which closer connection can be brought about. Al in the Royal Navy thoroughly recognise the loyal and able way in which the Mercantile Marine carries out its duties, often under extremely difficult and dangerous circumstances, and appreciate the excellent manner in which Mercantile Marine has taken up question of signalling between the two great Services."

With these weighty words one of the most honoured men has ever donned a Admiral's uniform surely none disagree. There is, however, need pursue the theme a little further. Why in the language and customs of China. should it not be made compulsory that efficient signalling apparatus be installed in all British ships? If we are to believe all we read on the subject, apparatus of this kind is usually conspicuous by its absence, and even i officers themselves, and not the shipowners, have to provide the lamps and course there was a time when ever leading Shipping Companies would not permit Morse signalling at night time, on the ground that it was calculated to distract the officer on watch from his particular duties in attending to the navigation of the ship. But we assume that such a notion as this is not now seriously held, although it is said that one Company generally toted for its enterprise still clings to the antiquated definite understanding between the theory. CHARGE AGAINST A MARINE

Alleged Thert of \$94.

A charge of stealing \$94 and a purse, the property of M. A. Rasack, broker, was heard at the Magistracy, to-day, before Mr J. H. Kemp. The charge was preferred against Private Herbert Vaughan, R.M.L.I Prosecutor's atory was to the effect that

at 7 p.m. on Sunday night he went down to the Belle View Hotel, where he was introduced to a gentleman by the proprietor. They played a game of billiards together, and then defendant asked if he might have a game. Complainant agreed. After the game was finished complainant went to take down his jacket, which was hanging up near the scoring board, and on of five cents per pound on coffee and searching the pockets he discovered that his purse, containing , 894, had been extracted, Information was given the proprietor, who sent for Police-Sergt Pitt, who, on arrival, asked complainant if he suspected anyone. Complainant replied that the only persons he suspected were two R. G. A. men, who had been walking about during the progress of the game. Sergt Fitt thereupon searched these men, but found no money on them. Defendant and the two Gunners then left the hotel. Later Sergt Pitt and prosecutor left for the Police Station and on their way they overtook the soldiers and defendant. Sergt Pitt asked them to come to the Police Station, which they did. Gunners were again searched without success, and then defendant said,

Mesers Lamko add Rogge in their ireigh circular dated Saturday, 1st May, state:-Last pircular bore date the 18th ult., and during the period since slapsed, quite a number of charters were concluded. As will be seen from list overleaf, business in the South has been rather lifeless, but Northern trade has quite made up for the deficiency and, judging from present appearances, chartering in that quarter will continue unabated for some time yet. In consequence of tennage getting scarcer, rates of freight from Yangtzo ports and Newchwang south words have, as anticipated, further improvalready 30 per cent better than those ruling at the beginning of last month, and a further advance seems reasonably certain. Saigon Hongkong!-In' consequence of the local rice market becoming very aluggish, charterers lowered the rate again to 14 cents. The majority of the 5 vessels mentioned in list of settlements happened to be in position and accepted the unromunerative freight just as a means of shifting North, where they are to take up engagements. Excepting a small steamer to Singapore on basis of about 174 cents, Saigon has absorbed no tonnage in other directions. From Bangkoh reports are to hand that the rate war between the North German Lloyd and the new concern has commenced, the former company now 155 booking carge at 15/22 cents as against. 18/25 cents formerly. The Java sugar season will start' at the end of May, but nothing definite can be said yet as to the outturn of the new crop. It is anyhow expected that this year will see a better trade from Java to China and Japan than 1908, when through the failure of the Cuba can the United States were the principal

rs of Java sugar and able to pay higher s for same than importers on this fixtures for Canton, the last one being on basis of 32 cents per picul. This rate is the highest on record since 1904.

Wuhu/Canton :- There is still such rush for tonnage, that the number of liners is quite insufficient, and at NOOD. | outside tennage is being continually inquired for. Several boats have been fixed at NOOD. during the fortnight at very decent rates. Wuhu to Swatow and . Hankow 'to Swatow also have a fixture each, and more tonuage can be placed. Coal Freights:-From Moji to Hongkong \$2.10 is now being offered, but even at this onhanced figure charterers find it impossible to secure tonnage. Moji to Singapore rate stands at .00 and Wakamatsu to Canton at \$2.70 with no steamers obtainable. Of Southern coal charters the following Dining Saloon. are reported: Pulclaut to Singapore as 82.25, Sebattik to Hongkong at \$2.10, Labuan to Hongkong at \$1.76 and Hongay to Canton at \$1.60. of the latter freights are anything but brilliant, but owners accepted for the sake of bringing the boats into suitable position for their next engagement Time Charter : - A suitable German steamer has been taken up for a short term for cattle trade. Considering the small carrying capacity, 1,500 tons, the rate of \$5,000 per month may be called a good one. Sail Tonnage Loading or to Load :- Brit. bark "Alcides," 2,492 tons net. reg., has been chartered to load honce for Baltimore and New York and will shortly take the bert's.

NOTICE.

For autumn loading in same direction

British bark "Eclipse," 2069 tons net. reg., and British bark "Juteopolis." 2652

Bad Scres Spread All Over His Head-Grew Worse Under Doctor's Care -Cuticura Effects Perfect Cure, Bringing Relief with First Set.

FATHER RECOMMENDS **CUTICURA TO EVERY ONE**

when my little boy was about four years old (he is now about six and a half years) a spot appeared on the side of his face just under the car. After a time it broke and spread further down. I took him to a doctor as soon as it appeared. He was under his orders for about three or four months when he was much werse. Seeing in a paper a Cuticura advertisquent I went and got a complete set of the Cuticura Remedies, the Cuticura Ointment, Cuticura Soap, and Cuticura Resolvent. I took him away from the doctors and gave him these Cuticura Remedies. I used two large bottles of Resolvent, five tablets of Cuticura Soap, and two or three time of Cuticura Ointment. From the first bottle he began to mend and before he had finished the two he was wholly mended. About twelve months after he broke out again at the back of the nackword it spread all over the head. I had one large and two small bottles of Cuticura Resolvent, three time of Cuticura Cintment, and four tablets of Cuticura Soap before I got it mended. I think it took me about three months each time. It is about three months each time. It is about three months each time. It is now about eighteen months since howas ill, and it has not broken out again, so I think he is all right now, thanks to Cuticura. I always recommend Cuticura, wherever I can, and I will always have pleasure in answering any inquiries. R. Scarth, 25 Newport Rd., Middlesborough, York, June 24, 1800.
